BIM ABILITY

I use **Revit**. I started to use Revit since **2017**.

I use it as the **main software** for my final project of bechelor and master. In my intership, 2019, I practice it in the dormitory of **Evergrand football club**.

In **Restoration Atelier of Politecnico**, I was in charge of the **h-BIM**. The hardest parts were to create the wooden **beam system**. Nevertheless, I was also taught to use the **self-adaptive family** to shape the vaults.

During the intership in Italy, I sometimes used **AutoCad** to help electric and thermal technician for the technical drawings. Finally, check and compose and print in PDF. I've learnt to use **R.I.R.** when the first year it's developed. I tried to use **Dynamo** in 2018.

Revit

3 projects in Politecnico.

AutoCad

Used in intership in Italy.

R.I.R.

Know how.

Dynamo

Used once in a teamwork.

GENERAL ABILITY

Drone piloting

HOBBY

EXPERIENCE

Bachelor

Guangzhou University.
Subject in architecture.

Architect

GD Architecture Design. In the team of drawings.

Instructor

Before the Politecnico di Torino.
I stayed in R.AC studio.

Master

Politecnico di Torino. Subject in Sustainability Architecture. Follow Giacomo Chiesa, researching the building EUI optimization.

Intern

In the LGC architetti, in Torino.

2015

2019

2020

2020
